

NEW Pipette Tips

Low Retention Pipette Tips

Low Retention, Filter Pipette Tips

- CELLTREAT Scientific Products Pipette Tips deliver high performance with exceptional value. A perfected balance between raw materials and efficient manufacturing process results in superior low retention
- Pipette Tips are universal fit and compatible with major pipettes
- Pipette Tips have smooth, hydrophobic surfaces to ensure accurate pipetting
- Filters reduce cross contamination and prevent damaging aerosols from penetrating into the pipette, and are positioned to allow extra headspace when pipetting maximum volume
- Multiple size Pipette Tips are available, including extended length tips (10 μ L and 1000 μ L) to allow better access to the bottom of test tubes, reagent bottles, flasks and other vessels
- 200 μ L filter tip is longer than standard tips for better access to vessels and increased headspace to filter
- Molded volume reference markings offer a quick double check opportunity

PIPETTE TIP RELOAD SYSTEM

- Reload System offers clear window for easy identification of color-coded wafers
- Support wafers have large grasping tabs for easy removal from Reload System and Rack
- Secure locking tab keeps reload system closed and prevents tumbling tips
- Reduce plastic waste by refilling empty racks

EMPTY PIPETTE TIP RACKS

- Hinged lids are designed for easy one-handed opening, making it easier to access repeatedly
- Lids have a stacking feature for added stability and a secure locking tab
- Lightweight lid design prevents tipping when open
- Interior support ribs prevent racks from warping
- Empty racks available with or without a wafer; with a wafer allows refill from bulk packed pipette tips, and without a wafer allows refill from pipette tip reload systems
- Bulk, non-sterile option available in unique self-standing, resealable bags
