

Ralston Hydraulic Calibration Kit

These hand actuated hydraulic pumps are available in three ranges: 0-1000, 0-1500 or 0-2000 psi with accuracy of 0.5%. A bleed-off valve permits a slow release

of pressure and fluid back to the transparent reservoir. A vernier fine tuning piston allows precise control of pressure to levels as low as 100 psi.

Ordering Information

FD7103P	Hydraulic Hand Pump Only
FD7103P-□	Hydraulic Calibrator
FD7105P	Carrying Case
FD4860P	Replacement Hose Assembly
FD4862P	Repair Kit for Hand Pump
FD4711P	AAA Grade Tester Oil

To Order, add -1000 for 1000 psi, -1500 for 1500 psi and -2000 for 2000 psi.
