# BRAND® Bottletop DISPENSERS & BURETTES

From BrandTech® Scientific

### Titrette® Bottletop Burette

The World's Only Bottletop Burette With Class A Precision.

The Titrette® bottletop burette is BRAND®'s industry leading fourth-generation burette. Its accuracy meets the limits for Class A glass burettes for both ASTM E287 and DIN EN ISO 385—a first among bottletops! It's suitable for most common titrants 1 mol/L or less in concentration.

The Titrette® completely disassembles for cleaning and maintenance, has a titrating tube that adjusts both vertically and horizontally, offers three digit resolution for volumes under 20 mL, and requires no switching between filling and titrating. The instrument can be set for 2 or 3 digits below 20 mL. People who don't need the additional precision are saved from having to round the number when transcribing the data. There are even models available with computer interface to eliminate transcription error. In fact, there are so many upgrades and improvements in the Titrette® it's impossible to list them all here.

The Titrette® is supplied complete with 45 mm thread, three polypropylene bottle adapters (45/33 mm, 45/S40 mm and 33STJ29/42), telescoping filling tube, replacement light shielding sight windows, certificate of performance, operating manual, two AAA batteries and one-year warranty.

### Comparison of error limits

		Titrette <sup>®</sup> bottletop burette				Bottle-top burettes according to DIN EN ISO 8655-3				Glass burettes Class A according to DIN EN ISO 385 ASTM E287	
Volume mL	Partial volume mL	A* < + %	μL	CV* ≤ %	μL	A* ≤± % μL ≤% μL			EL** (DIN EN ISO) Volumetric Tolerance (ASTM) ± μL		
10	10	0.10	10	0.05	5	0.3	30	0.1	10	20	
	5	0.20	10	0.10	5	0.6	30	0.2	10	20	
	1	1.00	10	0.50	5	3	30	1	10	20	
25	25	0.07	18	0.025	6	0.2	50	0.1	25	30	
	12.5	0.14	18	0.05	6	0.4	50	0.2	25	30	
	2.5	0.70	18	0.25	6	2	50	1	25	30

	25	0.12	30	0.04	10	0.4	100	0.2	50	50	
	5	0.60	30	0.20	10	2	100	1	50	50	

<sup>\*</sup> Error limits related to the nominal capacity (= maximum volume) indicated on the instrument, obtained when instrument and distilled water are equilibrated at ambient temperature (20° C/68° F) and with smooth operation. \*\* Error limit: EL = A + 2 CV.

The maximum resolution of the display: The tiration volume is displayed in steps of 1  $\mu$ L for instruments of 10 mL and 25 mL size and in steps of 2  $\mu$ L for 50 mL size instruments. For titration volumes above 20 mL the display will automatically switch to steps of 10  $\mu$ L. **Note**: If you need an official certification which confirms the error limits that are much stricter than those of DIN EN ISO 8655-3, we recommend a calibration certificate from an accredited calibration laboratory (e.g., the DAkkS laboratory at BRAND®).

Description	BrandTech® Cat. No.	2021 List Price
Titrette® bottletop burette		
10 mL (standard)	4760141	\$1,092.00
10 mL with RS232 interface*	4760241	1,520.00
25 mL (standard)	4760151	1,092.00
25 mL with RS232 interface*	4760251	1,520.00
50 mL (standard)	4760161	1,092.00
50 mL with RS232 interface*	4760261	1,520.00

<sup>\*</sup> Includes: connector cable (Sub-D plug connector, 9-pin), one CD (driver software and open RS232 communication protocol). The CD also includes an example application in XLS-file format, as well as a special operating manual.

Instruments with a factory DAkkS certificate are available. Contact BrandTech® Scientific for more information.

# **DISPENSETTE®** *S*Bottletop Dispensers

**NEW!** Dispensette<sup>®</sup> S bottletop dispensers build on the fifty year history of BRAND<sup>®</sup> dispensing expertise. Continual upgrades makes this the safest and most convenient bottletop dispsenser ever, all while retaining the features making the Dispensette<sup>®</sup>

the world's favorite bottletop dispenser. They mount directly on most solvent and reagent bottles for faster, more convenient dispensing. Instruments are autoclavable at 121° C (250° F) for use with sterile reagents.

### **DISPENSE VIRTUALLY ANY LABORATORY LIQUID!**

#### **Product Features:**

Both the Dispensette<sup>®</sup> S and Dispensette<sup>®</sup> S Organic are constructed using the "floating piston" principle. Each piston is matched individually with precise tolerances to the cylinder of the instrument. A thin film of the dispensed liquid of just a few  $\mu$ m thick acts as a non-wearing seal that reduces friction, so dispensing is easy and convenient.

A\*=Accuracy, CV\*=Coefficient of Variation

\* The value of accuracy and coefficient of variation are final test values referring to the delivered nominal volume, instrument and distilled water at equilibrium with ambient temperature (20° C/68° F) and with smooth operation.

# RUGGED, ECONOMICAL WIPING SEAL DISPENSERS

## seripettor® & seripettor® pro

The seripettor® and seripettor® pro bottletop dispensers feature an innovative replaceable piston cylinder cartridge that allows easy renewal of wearing parts. They are an excellent choice for labs dispensing crystallizing media, or labs where maintenance responsibility is shared. They also are an economical alternative

for customers who do not need the safety features or variety of accessories available for the Dispensette  ${\cal S}$ .

A spring-loaded, semi-automatic design greatly facilitates repetitive sample preparation.

### seripettor®

The seripettor® is suitable for many common liquids found in Biological laboratories: bases; buffers; culture media; hydrogen peroxide; or dilute, non-oxidizing acids. Even sodium azide solutions can be dispensed, something that destroys more expensive dispensers.

## seripettor® pro

Choose the seripettor® pro for more aggressive media, like DMSO, acetone, or dilute hydrochloric or nitric acids. An amber cylinder sleeve and opaque outer housing helps protect light-sensitive media.

#### Each seripettor® or seripettor® pro bottletop dispenser includes:

- Spare dispensing cartridge
- Discharge tube
- Filling tube

- Three PP adapters (GL 45/33, GL 45/38 & GL 45/S40)
- Operating manual
- One-year warranty
